TECHNOLOGY

# The Technology Package

To make your home a little smarter, simply add the TP: Technology Package to any of the Hudson Homes Inclusions packages. Start with these smart home essentials, and future proof your new home with the power of technology.

# Smart Lighting, Your Way

## 10 CONTROLLED ZONES

Personalise lighting throughout your home by grouping lights into zones. Using a smart device, choose how you wish to control each zone of your home. Up to 10 zones included.

## DIMMABLE LIGHTING THROUGHOUT

A dimming module is included with each zone, meaning you can set precise dimming control for that area, in addition to the standard on/off.

## STANDARD SWITCHES

The system is simply installed behind your standard wall switches and includes over-current protection, meaning no additional infrastructure is required.

## YOUR CHOICE OF LOCATION

Customise your lighting to suit your lifestyle by choosing specifically where each zone will be. With 10 zones included, you have a huge range of possible combinations.

COMPATIBLE WITH

## Smartphone Controlled

Your new home's lighting is at your fingertips. Change everything with only one click.

### Timers & Scheduling

The app allows you to set schedules and timers, optimising your lighting to suit your lifestyle and your home routine.

### Added convenience with scenes

Create your own scenes - with a single button, your whole home's lighting can change to your customised pre-sets, including grouping lights, setting on/off and precise dimming control.

### Compatible with other devices

Add more compatible smart devices into your app and gain limitless control of your home.

# Smart Video Intercom

## REMOTELY UNLOCK YOUR DOOR

An electric door strike is included in this package to turn any door into a compatible smart door.

## CONNECT MULTIPLE DEVICES

Easily connect up to eight smartphones or tablets, to answer calls or unlock doors from anywhere.

## IN-HOME TOUCHSCREEN INCLUDED

A single intercom door station and an internal 7" touchscreen is included in this package.

## SPEAK REMOTELY WITH VISITORS

Calls on your intercom can be received on any of your connected devices.

## PLAYBACK RECORDED FOOTAGE

Record visitors even when not able to answer calls. View recordings from any connected device. Monitor internal video memory: 10 calls max  
Monitor SD card memory: 1,000 calls max

## BUILT-IN LED LIGHT

Maintain visibility in low light with a built-in white LED light and illumination sensor.

## HIGH QUALITY OUTDOOR MATERIALS

From the colour video camera, to the hands-free microphone, each unit contains materials designed to suit the Australian weather, all year around.

**KEEP AN EYE ON VISITORS TO YOUR HOME**
